I hope that we are seeing the importance of church membership as we move through this sermon series. From being a “Functioning” and “Unifying” Church Member

to not being a “Me First” Church Member as we pray for our church leaders, we have looked at attributes and responsibilities that each of us should exude.

Today, we will look at what might be the most important part of our series. We will talk about “Leadership.” More specifically, we will talk about leadership in the family. Our society seeks to destroy our families by redefining what a family is. We have moved on from the fight of a marriage being between one man and one woman to now spreading the lie that men can become pregnant and birth children.

All of this comes from a lack of leadership and the failure to hold others accountable. My prayer this week has been for Church Members to take the blessing of church membership seriously.

Our message title is “I Will Lead My Family to be Healthy Church Members,” and our points will be:

- 1 - We Must be a Healthy Church Member
- 2 - We Must Lead Our Spouses Well
- 3 - We Must Lead Our Children Well

Because He Calls,
Pastor Miles
