Last week, we made it about halfway through our message on where we find our Confidence. Today, we will finish up this message as we see the difference between finding

our confidence in works versus faith. May we not forget that works are temporal, and faith in Christ is eternal.

We will then move on to the first part of a message called **“Pressing On Toward the Goal.”** As Christ-followers, we find our confidence in the faith that God freely gives us. Because of this, we should exude some attributes as we press on toward the goal.

The three points to our message today will be some of these attributes:

- 1 - Awareness
- 2 - Motivation
- 3 - Consistency
